

Paperflower Psychiatry, LLC.

Transportation Safety Agreement

Transportation & Discharge Policy

Due to the sedating and dissociative effects of ketamine-based treatments (including IM Ketamine and Spravato), patients are not permitted to drive or leave the clinic unaccompanied following a treatment session.

By signing this agreement, I confirm that I understand and agree to the following:

Required Transportation Safety Commitments

- I will not drive myself to or from treatment unless cleared in writing by my provider for pre-treatment only.
- I will have a responsible adult or rideshare service arranged to take me home after each session.
- I will not use public transportation unless I am accompanied by a trusted adult.
- I understand that clinic staff will not release me until transportation is confirmed and I am medically cleared.
- I agree to remain in the clinic until a provider has discharged me.

Non-Compliance

- If I arrive for treatment without a transportation plan, my appointment may be cancelled and charged in full.
- Leaving without authorization may result in a termination of services and documentation of AMA (Against Medical Advice) discharge.
- I assume all risks by leaving AMA and leave the providers at Paperflower Psychiatry LLC and Find Your Shine with no responsibility.
